GOING GOLD!

Help fight pediatric
cancer in September

www.brookehealey.org

**1 every 3
minutes**

A child is diagnosed
with cancer

1 out of 6

Children with cancer will not
survive five years

25%

Of childhood cancers
are brain tumors

Diffuse Intrinsic Pontine Glioma (DIPG) is a type of brain tumor found in the brainstem. It cannot be removed without also cutting out healthy brain tissue, which is necessary for survival.

DIPG PRIMARILY AFFECTS CHILDREN

0%

DIPG survival rate

6 to 7

Ages when most DIPG
diagnoses occur

84%

Of families dealing with
pediatric cancer suffer financial
hardship

Experts in the field believe that through a cure for DIPG, significant
advancements in other cancer research will be made.
